

Answerman Report 2014

Emails were up over last year by 75%, most were requests for jobs (which we don't have anything to do with). Next highest question was about rentals and if they could reserve dates at specific lookouts, (also something we don't do). Then there were requests for plans and blue prints of lookouts, updates, and photos of lookouts and requests for lookout information and histories. On an average week, I get about between 15 and 20 emails, not including the high volume of spam email.

It is recommended that more bold statements are placed on the Rental and Lookout Jobs web pages that we do not administer these items and to refer them back to the managing agencies.
